Specific Uptake of Evidence (examples)

- Restrepo and Rieger (2016, AJPM), Restrepo and Rieger (2016, JHE): Our natural experiment evidence on trans fats was an integral supporting document for a final determination by the FDA (DocketNo.FDA-2013-N-1317;FDA-2013-N-1317-0261) to remove the “generally recognized as safe” status of trans fats and supported its cost-benefit analysis (FDA-2013-N-1317). The EU Commission has used our evidence to enact regulation (SWD(2019) 162 final).
