CONTRIBUTIONS TO JOINT REPORTS

Along with June O’Neill, James Cunningham, Mark Regets, Seth Sanders, Hal Sider, and Nadja Zalokar, I helped develop the U.S. Commission on Civil Rights *Incomes of Americans* series. Each volume in this series uses Public-Use Microdata Samples (PUMS) from the decennial censuses and other historical data to trace the economic path of various ethnic and racial groups from 1940 to 1980. The advisory group for the *Incomes of Americans* series included Barry Chiswick, Reynolds Farley, Nathan Glazer, Claudia Goldin, Jacob Mincer, Walter Oi, Stephen Thernstrom, and Finis Welch.

I contributed to the following monographs: *Voices Across America: Roundtable Discussions of Asian Civil Rights Issues*, U.S. Commission on Civil Rights, 1991 (edited and wrote introduction); *The Economic Status of Black Women: An Exploratory Investigation*, U.S. Commission on Civil Rights, 1990, <http://www.law.umaryland.edu/marshall/usccr/documents/cr12b563z.pdf> ; *The Immigration and Reform Control Act: Assessing the Evaluation Process*, U.S. Commission on Civil Rights, 1989; *The Economic Progress of Black Men in America*, U.S. Commission on Civil Rights, 1986, <http://www.law.umaryland.edu/marshall/usccr/documents/e1858e471986.pdf>; *Report on Statistical Uses of Administrative Records*, Office of Federal Statistical Policy and Standards, U.S. Dept. of Commerce, 1980
